ABOUT ME

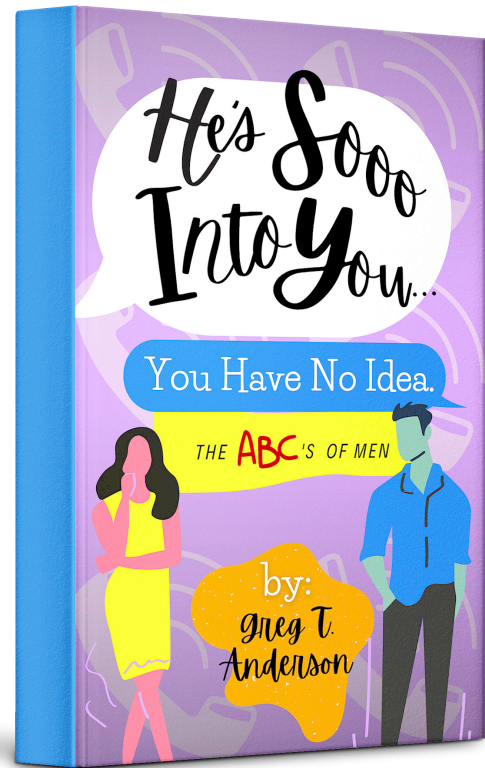

Greg T. Anderson is the author of "He's Soooo into You...You Have No Idea (The ABC's of Men)," and "The Power of Crap." He received his Bachelor of Arts in Communications from Baylor University. Growing up in Texas, Greg saw his mother endure physical and emotional abuse at the hands of several men and writes to those wanting a deeper understanding of who men really are behind the facade. The book is a witty yet highly accurate commentary on what goes on behind the curtains in the minds of men. Not afraid to use his own past experiences, Greg takes his readers on a journey inside the hearts and minds of men. He has no filter. "You're giving away all our secrets," men say to him. "You're EXACTLY right," Greg always replies.

I WENT FROM STRUGGLING TO UNDERSTAND WHY MEN MENTALLY AND PHYSICALLY ABUSED MY MOTHER, TO UNLOCKING THE MYSTERY TO THEIR BEHAVIOR SO THAT I CAN HELP OTHERS AVOID BEING BLINDSIDED BY THE WRONG MAN.

ABOUT THE BOOK

WISH TO KNOW MEN BETTER? – GREG T. ANDERSON TELLS THE ABC OF MEN!

Greg T. Anderson has all the answers you want from men and has put them on the table for his readers. His previous book 'The Power of Crap,' is a readers' favorite, but his recently launched book 'He's Soooo into You... You Have No Idea (The ABC's of Men)' is truly out of the ordinary, especially for the ladies!

We often wonder what men think about when they stay awake at night and stare at the ceiling or when they close their eyes while sitting in front of the television. Those thoughts, feelings, and all the suppressed emotions are unknown to us, but in the book, He's Soooo into You... You Have No Idea (The ABC's of Men), Greg T. Anderson has all the answers you need to know.

If you were told that 'He's not into You,' or if you were told that 'Men aren't emotional as you are,' You were lied to. They do feel all the emotion and sometimes even possess more feelings than women and children; you just can't see it as men are really good at hiding them. They will hide things, keep themselves within a shell and never tell you

about those secrets they keep within themselves – but this book will! Greg T. Anderson has faced life's cruelty and seen his mother suffer at the hands of men. Going through such conditions has made him stronger and bolder than ever, and he has no filter! He does not fear the world and puts forth the truth the way it is.

There is a lot of truth that you need to know about men, and Greg has uncovered all of them for you to see clearly through your naked eye. For doing so, he has oftentimes come across comments like "You are telling all our secrets!" to which his response is an open acceptance only. He admits that he is doing so and owns each word that he has brought to the table.

TESTIMONIALS

Men are so stupid. It made me realize the lengths they go through just to get a woman. The behind the scenes and black book information I liked a lot. I'd heard of it, but never knew what was in it. I'd highly recommend this one.

I've read tons of books on men. But, I've never read one so revealing and so raw before. Greg took me behind the curtain and I enjoyed the journey. My daughter is 21 and I am buying this book for her to read. Maybe she can get a head start and not go through what I went through in my relationships with men. One can only hope.

First of all it seems like this book has two parts. It talks about how men are truly into you and shows you why. Secondly, it dives into who men are at a base level which to me was mind-boggling. Overall, I'd give it 9 it had me laughing and that's a good sign.
